1st Announcement

Invitation to ESHO 2017

Dear Colleagues and Friends of Thermal Medicine,

On behalf of the **European Society for Hyperthermic Oncology** and of the **Hellenic Society of Oncologic Hyperthermia**, we are honored to invite you to join us for the **31st annual meeting of the European Society for Hyperthermic Oncology (ESHO 2017)**, which will be held **in Athens-Greece**, the "cradle of Democracy", **in June 21 - 23, 2017**.

The city of Athens, situated at the foothills of Acropolis and next to the sea, combines uniquely the old and the new. Ancient and brand new at the same time, Athens inspires and seduces its visitors, leaving its mark in their hearts and minds. Characterized by a culture and people that are welcoming and hospitable and easily accessible from every part of the world, Athens is considered to be one of Europe's safest capitals, easily to navigate with user-friendly transportation system and with numerous museums and archeological sites waiting to be explored.

Right at the foot of the Acropolis we will address all topics of Thermal Medicine, a dynamic and evolving anti-cancer discipline, with several ramifications that extend to other disciplines too.

Well acknowledged and reputable professionals with extensive clinical and scientific experience will be invited to share their experience in the field with us all. Just before the ESHO 2017 Congress, a selected number of participants will have the advantage to join the ESHO School of Hyperthermia, which will offer separate CME credits, apart from all its scientific and recreational benefits.

Several congress sessions have been planned with the clinician in mind, with the explicit intent to show the synergy of hyperthermia with all other anticancer modalities, especially with chemotherapy. Not so long ago Hyperthermia was transformed from a barely reliable cure into a modern, dependable medical discipline; technology was the factor that made the difference. Therefore, special sessions are warranted, to focus on existing and emerging technologies in Thermal Medicine.

We like to think of Thermal Medicine as a scientific concept that extends from cryotherapy to thermal ablation. This concept will be reflected in the program. The President's symposium will focus in the future of Hyperthermia and the new frontiers that we will encounter. We look forward to greeting you all in Athens this coming June, and aspire to organize a memorable scientific event for all the parties involved.

General Information

Dates

21-23 June 2017

Venue

Ethniki Asfalistiki Conference Center
103-105 Syngrou Avenue, 11745 Athens, Greece
<http://www.athenaumintercontinentalathens.com/en/meeting-room-ethniki-en>

Official Language

The official language of the Congress is English. There will be no translation facilities available for the congress participants.

Registration

Registration will be available from January 2017 at: www.esho2017.eu

Registration Fees

Registration Category	Early Fee (until 14 April 2017)	Late Fee & Onsite (from 15 April 2017 onwards)
ESHO members	€ 350	€ 450
Non-ESHO members	€ 500	€ 600
Students	€ 150	€ 200
Non-Exhibiting Industry	€ 900	€ 1.000
Accompanying person	€ 100	€ 200
One day registration	€ 160	€ 260

(in EURO including 24% VAT)

- All rates are per person. Only MD students and PhD candidates are eligible for student rates.
- Non-members can become members by applying through the ESHO secretariat at a rate of € 100.

The registration fee quoted includes:

- Admission to all scientific sessions
- Coffee breaks on 21, 22 & 23 June 2017
- Lunch on 21 & 22 June 2017
- Congress bag and all associated material
- Official program and book of abstracts
- Certificate of attendance

Trade Exhibition

A trade exhibition will be held during the Congress. It offers an excellent opportunity for companies to display their products. Firms wishing to exhibit may obtain information sending an email to: esho2017@afea.gr or visit the Congress website.

Accommodation

Hotel list and booking form will be soon available through the ESHO2017 web site: www.esho2017.eu

Call for Abstracts

Opening January 2017
Deadline for submission of abstracts is April 14th, 2017.
Abstracts can be submitted online in English through:
www.esho2017.eu

Key Dates

Registration opens:	January 2017
Abstract submission opens:	January 2017
