

Hana Dobsicek Trefna received the M.Sc. degree in biomedical engineering from the Czech Technical University, Prague, Czech Republic, and the Ph.D. degree in biomedical engineering from the Chalmers University of Technology, Goteborg, Sweden, in 2004 and 2010, respectively.

She is currently an Assistant Professor in the Biomedical Electromagnetics Research Group at the Department of Signals and Systems, Chalmers University of Technology. Her research interests include the engineering development and testing of microwave hyperthermia systems as well as periodical medical diagnosis and treatment applications of microwaves. She is head of the technical committee of the European Society for Hyperthermic Oncology (ESHO) which is currently producing Quality Assurance guidelines for various aspects of hyperthermia treatment delivery.
