

**Dr. Vassilis Kouloulias** was born in Athens Greece in 1964. He took his degree of Physics in 1987 from National and Kapodistrian University of Athens. From 1987 until now he is a Scientific Consultant in the Institute of Telecommunication and Computers of the National Technical University of Athens. In 1994 he took his PhD in Biomedical Engineering (High Techniques in Deep Hyperthermia) after he finalized his postgraduate studies in the Department of Computer and Electrical Engineering of the National Technical University of Athens. In 1996 he took his degree as a Medical Doctor from the Medical School of Athens. In 2000 he finalized his specialization as a Radiation Oncologist in the Aretaieion University Hospital of Athens. Between 2001-2002 he took his post-DOC under a European fellowship for Quality Assurance in Radiotherapy in EORTC (Brussels, Belgium). Between 2002 – 2004 he was Scientific consultant of the 1st Radiology Laboratory of Medical School of Athens, while in parallel he was working as Radiation Oncologist in the Radiation Oncology Center of Hygeia General Hospital in Athens. Between 2012 and 2015 he was the physician in charge for the Hyperthermia Unit of Aretaieion University Hospital. In 2004 he took his second PhD in Clinical Oncology in Medical School of Athens. From 2005 he is the Scientific Director of the Radiotherapy Unit in the 2nd Radiology Department of ATTIKON University Hospital. He is the Local Organizer of ESTRO courses in Greece from 2008 until now. He is Member of the European Society for Therapeutics Radiology and Oncology (ESTRO) from 1997, while he is Member of the European Society of Hyperthermic Oncology (ESHO) from 1994. He is also Member of the Royal Society of Medicine from 2013. He is the President of the Greek Society of Hyperthermic Oncology. He is also the Vice President of the Greek Society of Radiation Oncologists, the Vice President of the Greek Society of Head and Neck Cancer and the Vice President of the Greek Society for Genitourinary Cancer. He has been involved in hyperthermia from 1987 initially as a physicist in the Hyperthermia Unit of Aretaieion University Hospital. He is currently Associate Professor of Radiation Oncology in the Medical School of Athens. He has authored or co-authored more than 210 manuscripts in peer reviewed International Journals (17 publications in Hyperthermia), with more than 2500 citations and with an h-index of 24. His main aspects are hyperthermia, radiobiology, radiation oncology, medical physics, and medical image processing. He is currently the connection person between ESTRO and ESHO societies, related to hyperthermia. He is also member of the ESHO board from 2015.
