

Nikolaos Uzunoglu: Born in Istanbul in 1951 he graduated as Electronic Engineer from the Istanbul Technical University in 1973. He obtained his Master in Science and Doctor of Philosophy degrees in Electrical Engineering Science at the University of Essex, United Kingdom in 1974 and 1976 respectively. He obtained his Doctor of Science Degree in 1981 at the National Technical University of Athens-Greece in the scientific field of Electro-optic Systems. He was elected as Associate Professor at the National Technical University of Athens (1984) and promoted to Professor in 1987. He was elected and served as a Dean of the School of Electrical and Computer Engineering (1988-94) and established the Research Institute of Communications and Computer Systems (1991-99). He has been coordinator to a large number of Research Projects of European Commission (40) starting from 1984. In 2005 he was honored with the IEEE Fellow membership. He has designed and developed numerous prototype systems based on novel concepts of Electromagnetism. He has published 350 papers in internationally recognized peer reviewed scientific journals and he authored 5 books. He has supervised 65 Ph. D students. He is active in the research fields: antennas, microwave circuits and systems, digital communications and application of electromagnetic technology in biomedical engineering.
